INVESTOR PITCH — FEBRUARY 2026

Deploy AI agents that work for you

OperonAI is the AI agent workforce platform that lets businesses deploy, manage, and scale intelligent automation — from document generation to sales intelligence — in minutes, not months.

3,000+	No Code	200+	<3min
Possible AI Agents	Setup Required	Integrations	Doc Generation

THE PROBLEM

Businesses are drowning in manual work

Teams spend 60%+ of their time on repetitive tasks — drafting documents, responding to emails, scoring leads, and managing data flows. Existing tools are fragmented, expensive, and require engineering teams to implement.

Document Chaos

Legal teams spend 8–12 hours drafting a single lease or MSA. Manual errors lead to compliance risk and delayed deals.

Communication Overload

Professionals receive 120+ emails/day. 40% of responses are templatable but still crafted manually every time.

Disconnected Sales Data

Sales teams use 5+ tools to track leads, forecast deals, and analyze engagement. Insights are always stale.

OUR SOLUTION

One platform for your entire AI workforce

OperonAI combines AI agents, document generation, intelligent communications, and sales intelligence into a single, beautiful platform. Deploy agents in one click. No code required.

AI Agents

3,000+ possible agents across every business function

Document AI

Generate leases, MSAs, invoices, and more in minutes

Communications

AI drafts across email, Slack, Teams & social

Sales Intelligence

Lead scoring, deal forecasting & engagement analysis

Built & Live · One-click deployment · 50+ integrations planned · Enterprise-grade security

3,000+ AI agents, ready to deploy

Browse, deploy, and manage AI agents from a workforce board spanning every business function. 20+ agents are production-ready today, with thousands more available through our extensible agent framework.

Agent Categories

Legal & Compliance
Contract drafting, compliance checks, regulatory filings, risk analysis

Sales & Marketing
Lead scoring, outreach campaigns, deal forecasting, competitive intelligence

Operations & Finance
Invoice processing, expense management, reporting, vendor onboarding

Human Resources
Hiring workflows, employee onboarding, policy generation, performance tracking

Custom Automations
No-code workflow builder to connect any tools, triggers, and AI actions

Performance Benchmarks

AUTOMATION ECOSYSTEM

3,650+ ready-made automations across 20 categories

Every business function covered — from email triage to financial reporting. Deploy pre-built automations or create custom agents in minutes. Connected to 200+ apps out of the box.

What's Built (Production-Ready)

- Full AI agent catalog with deploy, manage, and monitor UI
- 6-stage document generation pipeline (leases, MSAs, invoices, COIs, W-9s, employment agreements)
- Multi-channel communications engine with voice matching
- Visual no-code automation builder with drag-and-drop
- Sales intelligence dashboard with lead scoring
- Stripe billing integration (payments live)
- Firebase auth, Firestore database, and hosting deployed

Upcoming Milestones

Q1 2026 — Private Beta
Onboard 50 design partners, collect feedback, iterate

Q2 2026 — Public Launch
Product Hunt, Hacker News, content marketing blitz

Q3 2026 — Revenue
First 100 paying customers, $1K+ MRR

Q4 2026 — Scale
200+ paid users, enterprise tier, partner program

MARKET OPPORTUNITY

$150B+ AI agent workforce market by 2028

The AI agent workforce market is exploding — enterprises are rapidly adopting autonomous agents to handle everything from document generation to sales operations and custom automations, driving 35%+ CAGR.

35%+
Year-over-Year CAGR
Source: MarketsandMarkets, 2024

85%
Enterprises Adopting AI Agents by 2027
Source: Gartner AI Predictions, 2024

Why Now?

- Frontier LLMs now enable production-grade AI agents at scale
- Enterprises are desperate to reduce headcount costs
- Remote work drove 4x increase in SaaS adoption
- Custom automations let businesses tailor agents to any workflow

Target Segments

- **SMBs:** 5–200 employees, legal, real estate, finance
- **Mid-Market:** 200–2,000 employees, multi-department
- **Enterprise:** Custom automations, SSO, SLAs
- **Agencies:** Custom automated workflows for multiple clients

BUSINESS MODEL

SaaS with three-tier pricing

A three-tier SaaS model: Plus ($15/mo), Pro ($35/mo), and Enterprise ($150/mo). Stripe-powered billing is already live. Higher tiers unlock advanced analytics, API access, SSO, and dedicated support.

Plus

$15/mo

For teams getting started with AI agents

- ✓ Unlimited AI agents
- ✓ Unlimited document generation
- ✓ All document templates
- ✓ Communications agent
- ✓ Email support

MOST POPULAR

Pro

$35/mo

Full power for growing teams

- ✓ Everything in Plus
- ✓ Advanced analytics & API
- ✓ Custom agent training
- ✓ Priority support
- ✓ Custom integrations

Enterprise

$150/mo

For large organizations at scale

- ✓ Everything in Pro
- ✓ Dedicated account manager
- ✓ SSO & advanced security
- ✓ SLA guarantee
- ✓ Custom onboarding & training

Unit Economics (Target at Scale)

~80%	$2–$4	$180+	3:1	<$60
Gross Margin	COGS per User/mo	Est. LTV (annual)	Target LTV:CAC	Target CAC (PLG)

COGS includes LLM API costs (OpenAI), Firebase infrastructure, and payment processing. Margin improves with scale via batching, caching, and model optimization.

REVENUE PROJECTIONS

Path to $1M ARR in 30 months

Realistic projections based on 2.5% free→paid conversion, 10% monthly user growth, and 80% annual retention with planned enterprise tier expansion.

QUARTER	SIGNUPS	PAID USERS	MRR	ARR
Q1 2026	300	30	$1.1K	$12.6K
Q2 2026	1,200	120	$4.2K	$50.4K
Q3 2026	3,000	300	$10.5K	$126K
Q4 2026	5,500	550	$19.3K	$231K
Q2 2027	11,000	1,100	$38.5K	**$462K**
Q4 2027	20,000	2,000	$70K	**$840K**
Q2 2028	32,000	3,200	$112K	**$1.34M**
Q4 2028	50,000	5,000	$175K	**$2.1M**

Key Revenue Levers

- **Avg. Revenue Per User:** $35/mo blended across Plus, Pro & Enterprise
- **Signup→Paid Conversion:** 10% (driven by trial experience & onboarding)
- **Monthly Growth Rate:** 10% (driven by product-led growth)
- **Net Revenue Retention:** 105%+ with upsells from Plus → Pro → Enterprise
- **LTV:CAC Ratio:** Target 3:1 by Q4 2027

Revenue Mix (at scale)

COMPETITIVE LANDSCAPE

The only all-in-one AI agent platform

Competitors solve one piece of the puzzle. OperonAI is the unified platform that brings together agents, document generation, communications, and sales intelligence.

CAPABILITY	OPERONAI	ZAPIER / MAKE	RELEVANCE AI	LINDY AI	GONG	CUSTOM BUILD
AI Agent Catalog	✓ **(3,000+)**	×	~ (templates)	✓	×	~ (manual)
Document Generation Engine	✓ **(6 types)**	×	×	×	×	~ (months)
AI Communications (multi-channel)	✓	×	×	~	~	~ (months)
Sales Intelligence & Lead Scoring	✓	×	×	×	✓	~ (months)
No-Code Workflow Builder	✓	✓	~	×	×	×
Unified Platform (single pane of glass)	✓	×	×	×	×	~ (expensive)
Time to Value	**Minutes**	Hours	Hours	Hours	Weeks	Months
Starting Price	**$15/mo**	$20/mo	$19/mo	$49/mo	$1,200/mo	$5K–$50K+

Our moat: OperonAI is the only platform where agents, document generation, communications, and sales intelligence share a **unified data layer** — enabling cross-functional automation that point solutions and custom builds can't replicate without months of integration work.

TEAM

Built by operators who understand the pain

Our founding team combines deep AI expertise, enterprise SaaS experience, and domain knowledge in legal, finance, and sales operations.

AM

Aditya Miriyala

Founder & CEO

Technical founder and sole architect of OperonAI. Designed and built the full-stack platform end-to-end — AI agent pipeline, document engine, automation framework, and React frontend. Deep expertise in LLM orchestration, system design, and product engineering.

KC

Koushik Cherukuri

Co-Founder & CFO

Leads financial modeling, pricing strategy, and investor relations. Drives unit economics optimization, revenue forecasting, and go-to-market planning. Background in quantitative analysis and business strategy.

KL

Khushal Lingamaneni

Co-Founder & COO

Owns product roadmap, customer discovery, and operational execution. Leads user research, competitive analysis, and partnership development. Focused on scaling the agent marketplace and driving customer acquisition.
